

Interstate Data Exchange Consortium

The Finder

Volume 1, Issue 2 – November 2007

Dear Colleague,

Limited Partnership!!! The IDEConsortium now offers any state to join in the success and power of sharing FIDM information and AEI solutions amongst member states as a Limited Partner. Joining as a Limited Partner is very inexpensive.

The services offered through the IDEConsortium affords all states the opportunity to effectively work together to enhance child support locate and collection processes. The IDEConsortium services include efficient and cost effective solutions for states to join together for Parent Locate, Financial Institution Data Matching, and Automated Enforcement of Interstate (AEI) cases. South Carolina is the seat agency for the current 15 state Consortium members.

The IDEConsortium has developed AEI processes to automate the freeze and seize of interstate accounts in a quick and efficient manner. The AEI process transfers matched data to a secure interstate web-based system, freeze and seize requests can be transmitted to other states, the system provides monitoring of actions, and federal reporting data is immediately available.

Successful child support enforcement programs interact with a broad range of partners working together. When states band together, share processes, data, and information, we all realize the benefits of more effective enforcement tools. In the child support enforcement environment, sharing information and processes is having the power to truly make enforcement actions successful.

For more information about the IDEConsortium's Limited Partnership and AEI services and costs, please visit our website at: www.IDEConsortium.com, or call Tom Christmus at 803-898-7342. I encourage your state to seriously consider joining the IDEConsortium as a full member, or as a Limited Partner.

Sincerely,

Terry Walter, Division Director
South Dakota Division of Child Support
